

SANDY BRUCE writes to us with his appreciation:

January 15, 2005

Dear Paul, I'm so happy to have my new golfing glasses. They are terrific. I cannot wait to take them to the course so I can realize their full potential.

In the meantime, I've been practicing some in the house and even with that I find a huge difference.

The ball seems to jump out at you, my head isn't bent way down and best of all, there is no distortion as I take my back swing.

I'm really thrilled about all the new features of these glasses, such as, progressive lenses, transitional lenses, ultra violet protection, anti-glare, scratch resistant and water treated protection.

All around these are great golf glasses.

Thanks so much Paul, you've done a great job!

Sincerely, Sandy Bruce
